

PROFEN

PORTABLE ELECTRIC VENTILATOR JAPANESE STANDARD

APPLICATIONS:

Our PF series portable blower has many strong point such as excellent function specially style, lightweight, string wind-power and reasonable structure it's special manufactured for underground cable maintenance, exhaust for fire fighting, piping construction and in other violent working for ventilation.

Note:

Make sure the ventilator's voltage in accordance with local voltage before use. the ventilator only can be used in ordinary situation, but not high humidity situation for the problem of safety caused by insulated. and please find a professional maintenance man to rub the lube in machinery axletree after ventilator has used 1000hours, to ensure the ventilation has long-life

Spare Parts

- ✓ Fan Blade
- ✓ Motor
- ✓ Castor wheel
- ✓ Starter switch

PF-600

Function parameter list

Model	Dimension in mm	Voltage V~	Frequency Hz	KW	Speed	Air Flow m³/min
PF-24	600	380/440	50/60	2.2	1400	290/330

Precaution

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid hazard.

The product is not for people who are physically weak, slow to react or mentally impaired (including children) to use, unless there are guardian to instruct and help. Children must be supervised to use the product, ensuring that they do not play with the appliance.

Applicable fields

vessel workshops, get rid of smoking and heat during electric soldering,

Dry paint, fresh air and clear smell less.

Steel mill and casting factory; cooling purpose on extension pressure and casting.

Anti-heat an ventilation for work fields in high temperatures.

Anti-damp and wet or ventilation for warehouses.

Tunnel and basement ventilation.

Stadiums, party's ventilation.

Ventilate while loading container.

Ventilation for the big hot room and flower house.

Studio; typhoon effects.

Dry plant, fish and meat.

Features:

High airflow, Light weight, Easy move around.

Advanced manufacturing skills, without gap to result the pressure and noise.

One casting in elegant shape.

Good appearance, high power ventilator.

With brake flying wheel, easy for in satiation.

Suction and blast port, angle adjust able for up down at 90° or 180°.

Small H.P. high flow rate and high efficiency operation.

Motor mount, with safety device for over loading protection.

Air flow can be adjustable at any angles.
